 "Craftsmanship That Lasts"

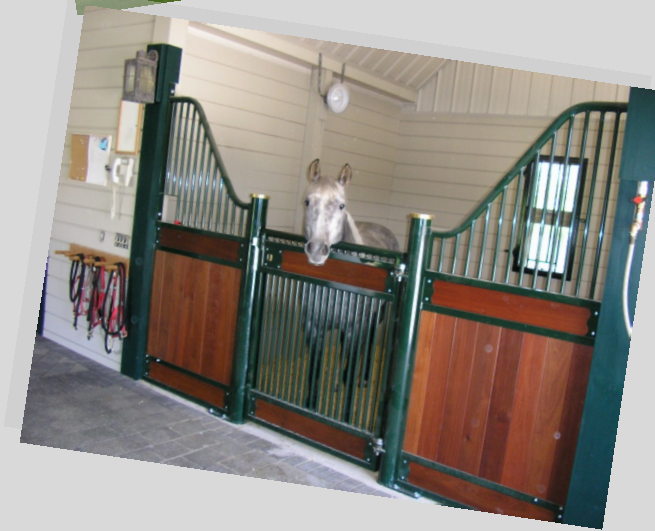

Hochstetler  
 Buildings, Inc.

Building Dreams  
 since 1978

"Craftsmanship  
 That Lasts!"

## Post Frame Construction

1. **Laminated Post:** 8' Spacing of structural columns
2. **Base Boards:** Two rows of Treated 2X6 T&G
3. **Framing Lumber:** Kiln dried #1 Grade or Better
4. **Headers:** Double support plates for proper roof loads
5. **Trusses:** Placed 4' on center
6. **Wind Support:** 2X6 Corner Bracing
7. **Siding Girts & Roof Purlins:** Typically 24" c/c

**Energy Efficiency**

We are able to achieve an R-19 and higher wall Insulation rating. The wall insulation package combined with our standard R-40 ceiling insulation makes HBI's buildings the most energy efficient in the industry.
